## WORK EXPERIENCE

### Software Developer (Internship), VeecoTech (Penang Branch)

- Developed and maintained HR management system features using Laravel, Mar 2025 - Sep 2025 JavaScript, and Oracle Database.
- Managed database architecture and version control through Git/GitHub workflows.
- Drove quality assurance and release reliability by conducting structured User Acceptance Testing (UAT), and executing remote staging bug fixes via AnyDesk.

### Junior Software Developer (Internship), ABN Sdn Bhd

Aug 2023 - Oct 2023

- Involved in creating weekly reports.
- Learnt the basics of frontend development (HTML/CSS, Laravel, JavaScript)
- Wrote a documentation for Easy!Appointments web application.

## PROJECTS

### **Monitus - Intelligent Public Alert System**

Oct 2025 - Jun 2026

- Award:** Bronze Award Winner, PIXEL 2026 Final Year Project Competition
- Designed to optimise emergency response times across local communities.
- Engineered a web-based command console using PHP Laravel, enabling administrators to dispatch location-targeted emergency alerts via interactive maps.
- Built multi-channel delivery mechanisms using Flutter for cross-platform mobile deployment and automated Telegram bot to reliably bypass congested SMS networks.

### **Campus Connect**

Oct 2024 - Jan 2025

- Web platform that centralizes USM campus events using an interactive map.
- Allows students to easily access, filter, and submit events for admin approval.
- Built with Vite, Firebase, TypeScript, and Leaflet.js

### **ANPR Smart Parking System | NextSeed Team**

Oct 2024 - Feb 2025

- Built an AI-powered parking system using YOLOv8 & OCR for real-time plate recognition
- Developed a Flask API, Firebase DB, and a mobile/web dashboard for tracking and payments.
- Optimized traffic flow, reducing congestion, and enhancing efficiency.
- Achieved Technology Readiness Level (TRL) 4, tested in real-world conditions under a university startup accelerator program.

## EDUCATION

### **Bachelor of Software Engineering with Honours**

Oct 2022 - Present

Universiti Sains Malaysia - **CGPA: 3.54**

## SKILLS

- Technical Skills:** C/C++, Java, Python, HTML, CSS, JavaScript, PHP, ReactJS, Laravel, LabVIEW, Technical Documentation, Graphic Design (UI/UX), Canva, Arduino, ESP32, Serial Communication Protocols (I2C, SPI, UART), RTOS fundamentals, Linux, Git, Android Studio, Flutter, PostgreSQL, Firebase, Docker, gRPC
- Soft Skills:** Problem Solving, Event Planning & Management, Agile Development, Teamwork
- Languages:** English (Proficient), Malay (Native)
